

AIC celebrates 40 years of history

1975-2015: 40 years of history, experience, jobs and success all over the world; this is the reason why on 19 May AIC held a celebration of its 40th anniversary.

A day to remember for Mr. Dino Capitanio, the founder & president of the company, all his cooperators and invited guests, who included customers as well as business partners.

The event began in the morning with a visit to the AIC workshop in Torbole Casaglia. Guests were given a tour of the workshop and had a chance to look different equipment designed and manufactured by AIC, speaking with some of the employees.

Following a luncheon at Hotel Villa Fenaroli, guests were taken by bus to Feralpi Siderurgica SpA, one of the most important and long-time customers, for a visit among the different areas of the plant located in Lonato (Brescia), starting from the scrap yard, EAF and CCM up to both rolling mills.

AIC's partnership with Feralpi has been ongoing since 1975, with AIC providing both production efficiency and safety. The companies are continuously working in partnership and after a recent modernization of the control rooms of EAF, CCM and rolling mill #1, they are now implementing new important projects.

Following the tour of Feralpi Siderurgica, guests were bused back to the Hotel Villa Fenaroli for a presentation by Mr. Marco Capitanio, AIC's managing director, focused on a brief description of the milestones of company's history and the main success achieved in 40 years of activities.

A gala dinner with employees and internal cooperators, customers, suppliers and partners closed the joyful day; an unforgettable celebration of a long journey, hoping to meet all again in ten years for an even bigger party.
