

## **SIDERPERU awarded AIC for a new shear**

SIDERPERU awarded AIC for the power control and automation of a new Shear at Nuevo Chimbote, Peru facility.

After several projects performed in the last five years, SIDERPERU confirms the desire to work with AIC on new projects by confirming a new drive and automation control for the intermediate start/stop shear at the rolling mill.

Full electrical and automation is part of AIC scope of supply, including DC motor, Drive and Shear control based on Simotion platform. Similar project to other ones carried out by AIC on same plant confirming the good results that customer is having in continuously cooperating with AIC, expanding the long-time relationship between two companies.

The new shear is supplied by a third-part mechanical manufacturer and AIC will control the complete E&A.

Commissioning of the Shear is scheduled for 2019 winter shutdown.

---

AIC is a global system integrator providing advanced and tailored automation and robotic solutions for the steel industry, with the aim to continuously improve both efficiency, competitiveness and safety of the production processes. With more than 1000 applications worldwide and more than 40 years of history, AIC can boast an unique experience in both greenfield and revamping projects in meltshops and long products rolling mills.
