

AIC adopts Smart Working.

With reference to the COVID-19 emergency measures, Automazioni Industriali Capitanio has adopted precautionary measures for the employees, customers and partners, such as: Smart Working. In addition to our general operating activities, which remain the same, Smart Working allows us to increase our flexibility and efficiency.

In Italy, almost all our employees work remotely from the home office with the ability to support all our customers around the world.

Our international offices are fully in service to provide our expertise and support. We have service engineers based in India, USA, Brazil, Middle East and Europe (Italy, Spain, Germany).

We are constantly monitoring the situation and open for any clarification.

In case of any questions, we are ready to answer all your inquiries by phone (+39 0365 826333) or email aic@aicnet.it.

AIC is a global system integrator providing advanced and tailored automation and robotic solutions for the steel industry, with the aim to continuously improve both efficiency, competitiveness and safety of the production processes. With more than 1000 applications worldwide and more than 40 years of history, AIC can boost a unique experience in both greenfield and revamping projects in meltshops and long products rolling mills.
